ROAM Q&A

About ROAM

When will ROAM be live?

Residential property type will be available in early summer 2021.

Since “All Residential Listing” was referenced, can & when will all commercial, lease, other types of properties be included?

We anticipate we will be the fully functional first quarter of 2022.

Until you go live, will all associations run as they do now?

Yes.

We will not fully utilize this until next year, or will we see “classes” as integrated?

You will see Residential this summer. We are unsure if other property types may roll out separately or all in the 1st quarter of 2022.

Are we required to do anything at this point?

No

Can we just sit back and wait for updates about when it starts, etc.?

Yes

Where will the data server be located?

Cloud-Based

Who is the vendor that created this software?

Black Knight is hosting the data server. Black Knight owns Paragon, and CoreLogic owns Matrix.

Who pays ROAM employees?

ROAM

Who owns ROAM?

The Shareholders Associations (currently Bayou, GBRAR, GCLRA, NOMAR/GSREIN)

Are there bylaws?

Yes

Can ROAM be sold?

ROAM will be Association Owned, and that would be a membership decision.

Are there allowances for additional seats on the Board to open as other MLS's join? Before, it was mentioned that each MLS would get at least one seat, but you may only have limited seats on the Board. Please clarify?

Every Association will get at least one seat; seats are based on membership count. ROAM governance does not allow any association to have a majority of the seats on the Board of Managers.

Who is NOMAR's contact to get more info on ROAM?

Either Rosemary@nomar.org (504-274-0702) or Missy@nomar.org (504-274-0701). Or any of the local Board of Managers: Craig Mirambell, Donna Chandler, Ginger Wiggins, or LaTanya LaBranch.

How will we get updates on this process with ROAM, and is there a contact number or email if we have any questions later?

GSREIN will be providing regular updates via Message of the Day and the weekly Thursday GSREIN News & Notes email blast. Other Associations will provide continued updates through their MLS Messages and their Association communications as well.

Associations Involved**Which MLSs are in ROAM?**

ROAM consists of REALTOR® Association owned MLSs. Currently included are NOMAR/GSREIN, Greater Baton Rouge Association of REALTORS®, Greater Central Louisiana REALTOR® Association, and Bayou Board of REALTORS®.

Can other MLSs participate?

All REALTOR® Association MLSs are invited to join.

Is RAA involved?

All REALTOR® MLSs are invited to join.

RAA (Acadiana) is currently on a FlexMLS system. Is there a known technology barrier to prevent RAA from joining ROAM?

No, no known technology barriers are preventing any REALTOR® Association from joining ROAM.

What area does the Central MLS board cover?

Alexandria, Natchitoches, Sabine, Winn, LaSalle, Catahoula, Concordia, Avoyelles, Rapides, Allen, Evangeline, Grant (GCLRA's jurisdictional areas are Allen, Avoyelles, Catahoula, Evangeline, Grant, LaSalle, Rapides, Natchitoches, and Winn parishes. (GCLRA has listings in multiple areas, but Greater Ft. Polk covers Sabine)

Products/Services

Will GSREIN have access to RPR?

Yes.

Will ShowingTime still be used?

Yes.

Will Remine still be available?

Remine will continue to be available to all GSREIN users.

Some associations offer different tech platforms, i.e., MLS Touch, Remine. Will these be available to all participants through ROAM?

These ancillary products will continue to be provided by those ROAM Shareholders who currently offer them. As vendor contracts become ROAM contracts, more products will become core services to all members.

Will access to MLS-Touch be included for all the included MLS's as well?

MLS Touch will continue to be available to those REALTOR® MLS's that currently provide it.

Will Instanet stay?

If your REALTOR®MLS currently provides Instanet, nothing will change

Is there a way to compare the functions of Paragon vs. Matrix?

Brokers who participate in ROAM will have the option to choose Paragon or Matrix to access the data through the Shareholder that provides that system.

I use a program called REality which gleans data from the local MLS. Will the same sorts of information be allowed with this other ROAM situation?

Nothing will change regarding the data feed you currently receive.

ROAM Logistics

I am a managing broker (small firm). Do I have to elect to participate formally?

All MLS subscribers who currently participate in a ROAM Shareholder will automatically be included in the ROAM database.

Just verifying, if I enter my listing via Matrix into the MLS, anyone in ROAM could see my listing without me having to learn Paragon or other products?

Correct

How do clients see the listings?

The client portal of the MLS service you currently use, such as Matrix or Paragon, will continue. There will also be a public-facing portal.

When a property is put in Paragon but located in GSREIN, will Paragon know the streets, areas, etc.?

Yes.

Can we flip between Matrix & Paragon, or do we have to choose one and stick with that one?

You choose one, but you could make a change to the other.

Will we have logins for both systems?

You will the same login to the system to which you subscribe.

How are the MLS rules determined?

Based upon NAR Model MLS Rules, MLS Policy, and local customs.

At what point do we begin to operate under a single set of rules?

Once ROAM has become fully functional, which is expected to be in the 1st quarter of 2022.

Is this a public-facing site?

There will be a public-facing site.

What new training will be required and offered, if any?

There should be no need for training as all will stay the same for you. Local training and support will continue to be provided as it is now.

Will sold data be shared on the public-facing site?

No

How far back will the historical data go?

As far back as each REALTOR® MLS has available.

How will our historical data be handled? If we belong to more than one MLS now, we have several accounts with prior listings. Will we be able to combine the prior listings or listings that are under the other MLS into one username/account?

All historical data is tied to the Broker, and the agent will stay. If a Broker chooses to change how they access the MLS, their data should remain with them.

How will past listings with “holes” in data for required ROAM fields work? For instance, NOMAR has fields that we don’t have a vice versa. Let’s say I want to search on a field that GBRAR has & NOMAR doesn’t. If ROAM decided to do away with that field, will that mean it’s no longer searchable?

All RESO-defined fields have been mapped, and we are currently working on mapping all required fields that may not be RESO compliant.

Currently, we cannot list properties in other parts of the state. Will we now be able to work with buyers and sellers across the state?

If you are knowledgeable about the area you are listing and selling; otherwise, you could be violating the Code of Ethics.

Are there any positive or not positive changes regarding the appraiser’s use of the system?

Appraisers realize that having access to ALL listings and sales is vital to their business, and ROAM will provide them with that.

How easy is it to switch to a new platform?

There is not a new platform; it will stay the same. You will just wake up to data from other areas being available on your same system.

Are we going to have to redo Listing agreements with clients?

No, the listing agreement is with the Broker, and that will not change.

Can I list properties in any of the 4?

You will be able to enter your listing in one of the participating MLSs, and members will see it of the other 3. You will not have to enter it more than once.

Is this tech exclusive to Louisiana? I am also licensed in another state and on the MLS board. I would like to inform them of this technology.

Have them contact Rosemary@nomar.org

When I need to find a home in Baton Rouge, I don’t have to go to a data co-op? Can I just look it up in my NOMAR search?

Correct. As soon as we roll out the residential this summer.

As the Broker, will I log in to my Matrix account and see all my office data whether agents are using Matrix or Paragon?

Yes.

Where can we find a map of the included areas?

This has been and will continue to be included in the updates. Check out the map of Louisiana with the participating areas highlighted in the ROAM Video and the Forum PowerPoint.

Can we do business in a total of how many parishes in LA?

Approximately 33 parishes represented thus far.

Will you include anything special for commercial properties?

Nothing will change the commercial property type.

Lockboxes/eKey

How do SUPRA users access Senti Lock?

They will be provided a code for entry.

What about the eKey? Will it work everywhere?

Access to all lockbox systems will be available.

If we are currently accessing SUPRA and SentiLock because we are members of two boards, and we choose to reduce to just one board membership will the other lockbox access be reciprocal?

Yes

IDX

How will API | IDX | Rets be handled?

The same as it is dealt with now by each REALTOR® MLS.

Will ROAM syndicate to Zillow?

Syndication will continue to be determined by each Broker. (As Zillow is no longer a 3rd party portal)

Who can my website provider contact in preparation for any changes in the MLS feed to prevent downtime when the system becomes active?

Remains the same as now. Whoever you currently work with at your REALTOR® MLS will be the person you contact.

Do we have to contact our IDX provider to access ROAM?

Not at this time

If we have an IDX on our website pulling from one association and we want the data feed from all, do we need to do anything with the back end of our website or will automatically pull all data from ROAM?

When ROAM becomes fully functional, it should be an easy transition

Dues/Cost

Do Broker and agents have to pay more dues for ROAM?

Each ROAM Shareholder will set its fees.

What is the additional cost to use ROAM?

None.

When will we know the final pricing from each Association for ROAM?

Each ROAM Shareholder will set its fees.

Will I still have to pay separate dues to belong to different associations if I am part of ROAM MLS?

Once ROAM is fully functional, you can make a business decision as to which of the ROAM Shareholders you choose to receive your MLS services. A Broker may choose from any of the 4 Associations of ROAM to access their MLS by joining as MLS Only User.” Costs will be determined independently by each Association. You will only need to belong to one of the four ROAM Association MLSs to access all the data.

What will be the cost for users who are not a member of any of these four boards?

A Broker may choose from any of the 4 Shareholders of ROAM to access their MLS by joining as MLS Only User.” Costs will be determined independently by each Association

Will my agents have to pay to join just one of the MLSs if I decide to consolidate and only belong to one of them?

Yes.

Will renewals take place in June?

Each Association will determine its billing cycles. GSREIN MLS Renewals will continue to occur in June

Association/MLS Membership

Will we no longer be required to join separate MLSs to have access to listings in multiple parts of the state?

Correct.

I am a member of NABOR but pay my MLS dues through NOMAR. Will I have access to ROAM, or would I have to join NOMAR?

If you currently access your MLS through NOMAR, you will automatically have access to ROAM.

Will we be asked at some point which MLS we want to retain if we are a part of multiple MLSs, or would we need to cancel the secondary MLS we have ourselves?

This is a business decision you will need to make when you feel the time is right.

If we all use ROAM, why do we need a local Board at all? Wouldn't it be easier to have one Board for the entire state?

ROAM is an MLS, not an Association so you will need to be a member of a REALTOR® Association to access an MLS. If you are a NOMAR member, you will access the MLS through GSREIN powered by ROAM. When ROAM is fully functional, you will only need to access the MLS through one of the ROAM Shareholders. (which will give you access to the listings in Bayou, GCLRA, GBAR, and NOMAR.)

As a Broker, do I still need to have membership in NOMAR and GBRAR for my agents to choose which platform they use?

You will only need to maintain your REALTOR® Association membership in any association to gain access to the MLS. You and your agents will be able to access all information through the ROAM Shareholder you choose.

I am a broker belonging to NOMAR and Bayou Board. Will, my agents, be in Bayou Board be able to use Paragon, and agents in NOMAR can use Matrix?

Yes.

I currently put listings into both Greater Baton Rouge and New Orleans MLS. Will I have to continue?

No. Once ROAM becomes fully functional, you will only need to input the listing once through the ROAM Shareholder you choose.

Can I list properties on all boards?

Once ROAM becomes fully functional, your listings will be available through all four REALTORS® MLS's.

If I am a primary sponsoring broker member with NOMAR and I am sponsoring broker member at GBRAR for my Baton Rouge Agents, will I be able to cancel my GBRAR membership? And move all my agents to ROAM?

Sponsoring Brokers are free to belong to any REALTOR® Association and still receive MLS through any ROAM Shareholders.

We are secondary member of GCLAR. Does this make us members of ROAM?

Yes, all MLS subscribers who currently participate in a ROAM Shareholder will automatically be included in the ROAM database.

MLS dues are separate from our board fees. Can we shop the Association with the best ROAM fee, or do we have to use the MLS from our primary board membership?

You are free to belong to any REALTOR® Association and choose MLS service from another.

ROAM vs GSMLS

What is the difference between Greater Southern and ROAM?

ROAM has 100% of the current and historical data and is REALTOR® Association-owned.
